Professional Summary

Full Stack Software Engineer with 6+ years of experience delivering scalable, production-grade systems. Currently working at Cloudilic as a Full Stack Developer, building cloud-based applications and AI-powered solutions. Strong expertise in React, Next.js, TypeScript, Node.js, PostgreSQL, and Docker. Experienced in building Retrieval-Augmented Generation (RAG) systems, integrating LLM APIs, designing embeddings pipelines, and developing AI agents using LangChain. Comfortable working directly with clients, architecting solutions, and deploying secure cloud infrastructure.

Technical Expertise

- Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap
- Backend: Node.js, NestJS, Express.js, Laravel
- Databases: PostgreSQL, MongoDB, Vector Databases
- Cloud & DevOps: Docker, Kubernetes (Foundational), AWS Fundamentals
- AI & GenAI: LangChain, RAG Architecture, Embeddings, LLM API Integration
- AI Systems: Build RAG systems (chunking, indexing, re-ranking, grounding, citation handling)
- Agents: LangChain AgentExecutor, tool integration, memory management
- Architecture: REST APIs, Scalable Systems, Performance Optimization
- Client-Facing Delivery & Async Communication

Professional Experience

Cloudilic – Full Stack Developer (2024 – Present)

Building scalable cloud-based applications and AI-powered systems. Designed RAG pipelines including embedding generation, vector storage, retrieval, and grounded responses. Integrated LLM APIs with structured prompting and function-calling workflows. Managed Docker-based deployments and infrastructure reliability.

M5ZOOM – Senior Full Stack Developer (Jan 2024 – 2024)

Led frontend and backend development. Architected scalable APIs and improved database performance before transitioning to Cloudilic.

JOE13 – Senior Full Stack Developer (Jul 2023 – Dec 2023)

Built modular frontend systems and optimized backend services using PostgreSQL and NestJS.

SveaSoft – Senior Full Stack Developer (Jan 2023 – Jan 2024)

Delivered high-performance web systems and enhanced backend reliability.

MRM Advertising (Dubai) – Full Stack Developer (May 2020 – Dec 2022)

Built shipping platform and e-commerce systems with full lifecycle ownership.

Vizadi – Front-End Developer (Apr 2018 – Apr 2020)

Developed interactive UIs and improved SEO, performance, and responsiveness.

Core Strengths

- Forward-Deployed Style Engineering
- Production-Grade AI Application Architecture
- RAG & LLM Integration
- Cloud Deployment & Infrastructure Awareness
- Problem Solving in Ambiguous Environments
- Cross-Functional Collaboration with Product & Data Teams
